**INTRODUCTION**

---

**REVIEW**

Review the drill movements from EO M108.03 (Execute Turns at the Halt).

**OBJECTIVES**

By the end of this lesson the cadet shall have closed to the right and left.

**IMPORTANCE**

It is important for cadets to be able to perform drill movements at a competent level, developing sharpness, esprit-de-corps, physical coordination and alertness. These movements should be executed with ease ensuring that the cadets move together as one, which promotes discipline, alertness, precision, pride, steadiness and cohesion, and helps develop teamwork.

Develop and use a vocabulary of short, concise words to impress on the cadets that the movements must be performed smartly. For example, the words "crack", "drive", "seize" and "grasp" suggest the degree of smartness required. Profanity or personal sarcasm shall never be used.

Proper drill movements shall be combined with a professional demeanour throughout this lesson.

This lesson is broken down into movements. Explain, demonstrate and allow time for the cadets to practice, in a variety of positions.

Capitalization indicates the words of command for each movement.

Cadence is to be maintained when completing movements.

The term squad is a generic name for a group of cadets, used to teach drill movements. This term can be interchanged with platoon, flight, division or any other applicable elemental or regimental term.

Assistant instructors may be required for this lesson.

## Teaching Point 1

**Explain, demonstrate and have the cadets close to the right.**

Time: 15 min

Method: Demonstration and Performance

## CLOSE TO THE RIGHT

Closing to the right is executed to adjust position right. Close march paces to the right shall not be ordered when the distance required to move exceeds eight paces. When the distance is greater, the squad shall be turned and marched the required distance.

On the command ONE PACE RIGHT CLOSE MARCH BY NUMBERS, SQUAD—ONE, the cadet shall:

1. bend the right knee, carrying the foot to the right and placing it on the ground with the inside of the heels one side pace 25 cm apart;
2. balance the weight of the body evenly on both feet; and
3. keep the arms at the sides.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- arms not held straight and firmly to the sides,

On the command ONE PACE RIGHT CLOSE—MARCH, combine the two movements, observing the following timing:

1. one pace, one-one,
2. two paces, one-one, pause, one-two: and
3. three paces, one-one, pause, one-two, pause, one-three.
