APPROACH

A practical activity was chosen for this lesson as it is an interactive way to allow the cadet to experience recreational marksmanship in a safe and controlled environment. This activity contributes to the development of marksmanship skills and knowledge in a fun and challenging setting.

INTRODUCTION

REVIEW

The review for this lesson consists in the procedures evaluated as part of the Air Rifle Handling Test.

OBJECTIVES

By the end of this lesson the cadet shall have participated in a recreational marksmanship activity.

IMPORTANCE

It is important for cadets to participate in a recreational marksmanship activity because it allows them to experience marksmanship in a fun, dynamic and safe setting.

Teaching Point 1**Supervise the cadet's participation in a recreational marksmanship activity.**

Time: 80 min

Method: Practical Activity

A range briefing is conducted to pass on vital information and answer any questions the cadets may have prior to participating in a marksmanship activity. The range briefing is required to ensure the safe execution of a marksmanship activity.

The range safety briefing is normally conducted by a Range Safety Officer (RSO), as the safety of the range is their responsibility.

CONDUCT A RANGE BRIEFING

The following elements may be included in a range briefing. They would be adjusted based on the requirements of the activity.

1. Welcome and staff introduction.
2. An overview of the range layout. Description of the out of bounds / danger areas, location of range facilities, location of concurrent activities, as well as routes of access.
3. The general safety rules.
4. An explanation of the activity and course of fire: Type of activity / Training conducted, the distance, the targets being used, the indication (number of rounds and how they will be fired), and the scoring.
5. The equipment being used, eg rifles, ammunition, safety equipment.
6. The safety precautions: individual safety precautions, rifle safety principles, and safe rifle status.
7. The range commands that will be heard during the activity.
8. The cease fire command: When to use it, who can call it, and action upon hearing a cease fire.
9. Immediate actions (IAs) and stoppages: The types of stoppages that may occur and the immediate actions that must be taken.
10. Personal hygiene, eg washing hands after handling ammunition or rifles.
11. First aid and emergencies: Location of first aid point, identification of first aider, action in the event of an emergency, emergency routes of access, emergency response plan.
12. Assignment of relays: Number of relays, assignment of relay, and timing of relay.
13. Concurrent activities: Type, timing, supervisory staff / OPI.
14. Additional items, eg ensuring handling tests have been completed, timing for the activity (when the activity will begin), declaration requirements, breaks, messing / meals / snacks, set up and dismantling of the range.
15. Opportunity for cadets to ask questions.
